# Welcome Back to Everything DiSC®

Everything DiSC® Comparison Report

Alex, this report is designed to help you better understand Gracie Lanza and to build a more effective working relationship with her. All of the information is derived from the responses that you and Gracie gave when answering your Everything DiSC® profiles.

Once again, you'll be using the Everything DiSC Map. Here's a quick refresher on the four DiSC® styles.

**Remember, no DiSC style is better or worse than any other, and every style adds something important to an effective working relationship.**

# How You and Gracie Fit on the Everything DiSC® Relationship Map

## DiSC® Style Comparison

Everything DiSC® Comparison Report

The eight words shown around the **Everything DiSC® Relationship Map** shown below are **priorities** that people use in their work that affect their relationships with others. If you've completed an application-specific Everything DiSC Profile (such as Management or Sales), these priorities will look slightly different. However, the basic motivations and preferences of the DiSC® styles remain consistent. Our research shows that these eight words are useful in describing how our style preferences affect relationships.

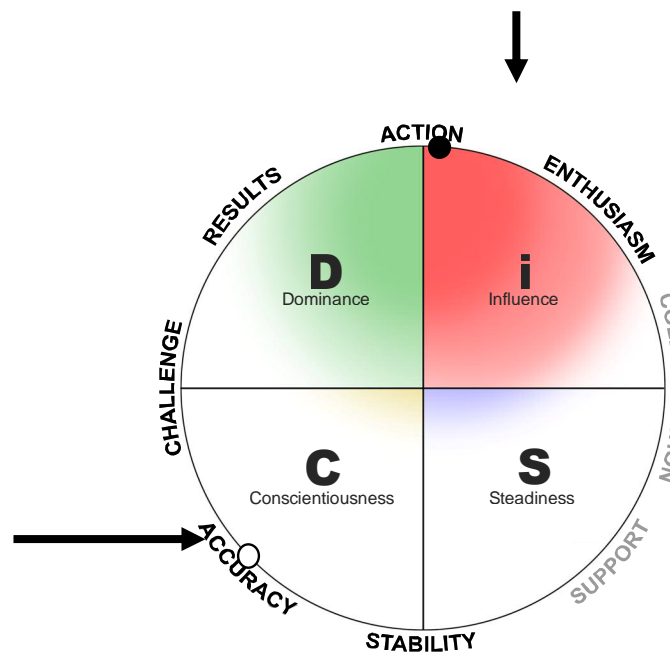

- You
- Gracie Lanza

### You: iD Style

You emphasize Action, Enthusiasm, and Results, which are priorities that Gracie doesn't share. Most likely, you tend to be more adventurous, high-spirited, and driven.

### Gracie: C Style

Gracie emphasizes Accuracy, Stability, and Challenge, which are priorities that you don't share. Most likely, she tends to be more systematic, cautious, and questioning.

## Understand Each Other's Priorities

Because Gracie's style is C, she values **Accuracy** and prefers an analytical environment. This isn't one of your top priorities, and you're more likely to focus on rallying others around a common cause with your **Enthusiasm**.

Gracie also places a high priority on **Stability**, so she's likely to focus on follow-through and approach decisions cautiously. You, on the other hand, probably tend to be more **Action**-oriented and spontaneous.

Finally, Gracie is likely to **Challenge** new ideas, and she may come across as questioning and skeptical. In contrast, you may focus more energy on driving toward quick **Results**.

As you can see by the map above, your positions on the map are very far apart, which means that your DiSC styles are **Very Dissimilar**. This doesn't necessarily mean that the two of you don't have anything in common, or even that you will have any problems working together. The next pages will give you an opportunity to explore your similarities and differences, and to see how these might translate to strengths or challenges when you work with Gracie.

## Your Similarities and Differences

OK, Alex. In this section, we'll explore how you and Gracie compare on six different pairs of traits. These traits were chosen for you and Gracie from a variety of traits that are measured by your DiSC assessment. These six pairs of traits were found to be most significant for your relationship with Gracie, and this will hopefully lead to a meaningful dialogue between the two of you. Gracie's report includes the same information, but written from her perspective. Each page will include the following three steps:

### 1) **DISCOVER** how you and Gracie fit on the trait continuum.

For each pair of traits, you'll receive a continuum that shows where you and Gracie each fall, which is clearly labeled with your names and two dots (black for you, white for Gracie). You'll also receive a paragraph that interprets the placement of your two dots. Here's an example of a trait continuum:

### 2) **PERSONALIZE** the information by selecting from several bullet points.

Next, you will read a list of three bullet points that further explain how this pair of traits might play out in your relationship. Read the list and personalize your feedback and Gracie's feedback by:

- Putting a ✓ next to statements you agree with,
- Putting an X next to statements that you don't agree with, and
- Putting a ? next to statements you aren't sure about
- Adding your own statements next to the blank bullets

### 3) **APPLY** what you've learned and gain some helpful tips.

Finally, you will receive questions and a list of tips that are customized based on where you and Gracie each fall on the trait continuum. These questions can be used for self-discovery, or you and Gracie can choose to complete this section together as a dialogue. The "Tips for Working with Gracie" are practical ideas that you might try to increase effectiveness with Gracie in this area.

You may find that differences are sometimes a healthy part of your relationship, while at other times, they can cause tension. Likewise, your biggest similarities can also pose both benefits and challenges.
